Historical Information Tracking System (HITS)

HITS provides geographical grant and contract information by fiscal year. Contract data is only available for FY 2000 and prior years. After each fiscal year is closed out that information becomes available in the HITS. Current fiscal year data is not available in this system. Geographic searches can be performed by State/Country, City, District and Institution. Individual searches are performed on Grant Number or Principal Investigator.

 Reports can be viewed in the following formats:

HTML Web display
Download to Excel Spreadsheet
PDF File
Graphs
Information is summarized and can be opened to show further detail or collapsed back to the summary level.

The HITS will expand to include more data items. Your input is welcomed. Please email Carol Smith smithcar@mail.nih.gov or call 301-435-5215 if you have suggestions.
